

Our top tips for preparing your hair for your wedding day.

For the best results shampoo your hair the night before. Make sure you shampoo twice, focusing on your roots.

Condition your mid lengths/ends only. Rinse thoroughly.

Fully dry your hair with no styling products. Do not air dry. We recommend a no marks hairband or silk scrunchie if you are putting your hair up after.

We recommend having any hair accessories you wish to use ready and remove any tags.

We recommend a loose or zip up top that will be easy to remove without touching your hair. No dressing gowns with large collars, hoodies or tight t-shirts.

We hope you find this useful! If you have any other questions, please contact us.
